

Digital Poster Application Form

Digital Posters – This year at the CPA Convention in Vancouver!

As the Digital posters continue to be a success, for the third time at the CPA Convention, you will have the opportunity of presenting your poster on a LCD screen. This cutting-edge medium will allow you to display 'a poster' as a series of images, with either times or manual (via remote control) advancing from image to image.

Give free reign to your creativity!!

If you choose the LCD option, you will need to prepare your poster either as one image or as a series of images, each measuring 1920 pixels by 1080 pixels (an aspect ratio of 16 x 9), save it either as a .jpg or .jpeg file at 72 ppi (pixels per inch), with files named to ensure their proper display order (e.g., A_CPA12Name.jpeg, B_CPA12Name.jpeg). Save your poster on a USB drive and bring it to Vancouver.

No more need for trekking a poster across the country!

The LCD poster option is a show-cased innovation at the 2014 CPA convention. It will enhance the impact of your poster session. Contact Céline Delangis McCorkell for more information, at convention@cpa.ca.

There will be 8 poster sessions throughout the convention. Each poster session will have 15 Digital Poster spaces available. Please indicate below if you would like the opportunity to use this advanced format.

Please note: Due to limited space, selection will be done on a first come first serve basis. Those selected will be contacted before March 28th. Payments will only be processed if your application is approved.

Name of First and Presenting Author
