FOR IMMEDIATE RELEASE

Students from St. Catharines, Ontario and Montreal West, Quebec win the Canadian Psychological Association's 4th Annual High School Science Award in Research

Vancouver, BC (June 6, 2014) – The Canadian Psychological Association (CPA) is pleased to announce the 4th Annual High School Science Awards - an initiative for Canadian high school students who have made a foray into psychological research. CPA received submissions from high school students across the country and psychologists from CPA's Scientific Affairs committee reviewed and ranked the submissions.

This year's recipients are winner Harmonie Chan, a senior student of Sir Winston Churchill Secondary School (St. Catharines, Ontario), for her submission entitled *Betty White versus Natalie Portman: Investigating Attractiveness Judgments and Age Estimates for Young and Older Adult Faces* and runner-up Logan Stack, a junior student of Royal West Academy (Montreal West, Quebec), for his submission entitled *Voting: More Than Meets the Eye?*.

CPA has invited Harmonie and Logan to attend the CPA's 75th Annual Convention, present their work, and receive the award which includes a cheque generously donated by one of CPA's partners, Scotiabank. The presentations will take place on Friday June 6th at 10:00am, at the Hyatt Regency Hotel, Vancouver, British Columbia. Dr. Wolfgang Linden, Ph.D., CPA's president and Peter Graf, Ph.D., CPA's former president, will officiate and present the award and certificate.

About the Canadian Psychological Association (CPA)

The Canadian Psychological Association (CPA) is the national association for the science, practice and education of psychology in Canada. With almost 7,000 members and affiliates, CPA is Canada's largest association for psychology. To find out more information go to www.cpa.ca
