

The Right Honourable Stephen Harper
Prime Minister of Canada
House of Commons
Ottawa, Ontario K1A 0A6

Dear Mr. Prime Minister,

As a psychologist I strongly support the commitments your party made during the recent General Election campaign. I urge the government to:

1. quickly establish the Canadian Mental Health Commission,
2. strongly support research through increased funding for the federal granting councils, and
3. strongly support post secondary education through a specific federal transfer to the provinces and territories.

Post secondary education and research are vital to Canada's future. Mental health promotion, mental illness, mental disorders, behavioural health and addictions must become a priority in Canada.

Thank you for your attention to these important issues.
