

A LEADER IN GLOBAL HEALTH

PSYCHOLOGY'S ROLE IN ADDRESSING CLIMATE EMERGENCIES

INTERNATIONAL SUMMIT ON PSYCHOLOGY

November 14-16, 2019

Proclamation on Collaboration

*We, representatives of national and international psychological organizations in attendance at the **Inaugural International Summit on Psychology's Contributions to Global Health in Lisbon**, are committed to ongoing collaboration in the application of psychological science to jointly advance progress on critical global issues, including the United Nations Sustainable Development Goals. Our investments of professional, scientific, educational, and applied resources will be directed to advancing those issues and Goals for which psychology offers the greatest contribution. Accordingly, our initial efforts will be focused on Sustainable Development Goal 13: Take urgent action to combat climate change and its impacts. Our mutual work on climate change will also provide a framework and model for future collaboration focused on proposals to address critical global issues.*
