Dear SWAP Members

It has been a long winter for many of us! But, the time is rapidly approaching for the CPA annual convention, this year in Vancouver. We can begin to imagine warm and humid weather. In less than six weeks we will once again have the opportunity to attend some fantastic workshops, symposiums, roundtables, visit with presenters at the SWAP poster session, enjoy our SWAP keynote presentations, participate in SWAP’s AGM, and appreciate each other at our afternoon social gathering.

As mentioned in the January newsletter a number of members of the SWAP executive – Taslim Alani, Lucie Kocum, Jessica McCutcheon, and myself, as well as our past recipient of the SWAP mentorship award, Janelle Kwee – had been working together on this year’s SWAP pre-convention workshop: Giving birth to a new vision: Navigating the (in)visibility of motherhood in the academy. Unfortunately, due to the very low pre-registration numbers by early May, we had to make the decision to cancel the workshop.

We can still look forward to a rich SWAP programme as well as to other sections’ presentations and workshops that will be of interest to our members. You can check out the CPA site and take a look at the convention program-at-a-glance. As always, there are a lot of exciting events planned! You can find the convention-at-glance using the following URL: http://www.cpa.ca/convention/conventionprogram/

As you are aware, the recipient of the 2013 SWAP Distinguished Member Award, Dr. Noreen Stuckless, will be giving the SWAP keynote address entitled Lethal and non-lethal violence against women: perspectives on personal, health, and societal consequences of inter-partner violence. Dr. Stuckless will be talking about violence against women and its effects on women’s health. She will explore with us key questions related to fatal and non-fatal acts of violence against women. Dr. Stuckless will also interrogate positive initiatives in support of the survivors of violence. This promises to be a very informative presentation. SWAP’s AGM will follow and then will be hosting a one-hour social event and so there will be lots of opportunities to continue the discussions following from Dr. Stuckless’s presentation.

In addition to these SWAP events, SWAP members will be presenting posters; two symposia are scheduled; as well as two conversation sessions. All of the details can be found in the program. But, in brief, SWAP’s schedule can be found on pages 7-8 of this newsletter. Mark your calendars! We are hoping for a strong presence at the Convention in Vancouver this year as well as at all of SWAP’s planned events!

As the Convention draws nearer, I realize that my term as SWAP Coordinator is rapidly coming to an end. When I first took on this task, as coordinator elect for a year and then two years in this position, it seemed like it would involve a long stretch of time. Now it feels, three conventions later, as if no time at all has passed! It has been a real honour to serve in this capacity and to have worked closely with all of the wonderful women on the executive for the past few years. My heartfelt thanks go out to all of the members of the executive for their support and hard work. I look forward to working with Paula Barata during this upcoming year as she takes us forward into the next two years of feminist psychological activity at CPA. In closing, I would also like to thank all of you for your involvement, commitment to feminist psychology and for your enduring support of SWAP. See you all in June!

Best wishes, Lynda
Welcome to the May issue of the SWAP Newsletter!

I hope you enjoy the May edition of the SWAP Newsletter. Like many SWAP members I’m gearing up to attend the upcoming CPA convention in Vancouver. From the look of the SWAP events (to be found on pages 7 and 8), it is going to be a fantastic convention! However, as one of the organisers of the SWAP pre-convention workshop, I am saddened that low anticipated attendance required its cancellation. I must admit that the SWAP institutes have always been my favourite part of the CPA conventions. I hope to be able to attend many more in the future.

Moving on to the excitement of the May newsletter, in addition to our highlights of the CPA convention, you will find “Members’ Recent Publications” on page 9, “Job Postings” on pages 10 and 11 and a “Call for Nominations” on page 12. A number of “Announcements” can be found on page 13. The successful speed mentoring event will be back at the CPA convention this year and you will find further information about the event in this “Announcements” section. Finally, near the end of the newsletter you’ll find an invitation to a book launch (p. 14) and information on an upcoming global symposium on women’s leadership (p. 15).

Again, I strongly encourage SWAP Members to make submissions to the newsletters. I would especially love to see an increase in the following columns: Members’ Recent Publications and Recently Defended because I know there are SWAP members out there doing exciting and innovative research. Also, please feel free to send me any other submissions that you would like included, such as Calls for Papers or Nominations, Feminist Review, Executive Showcase, Conference Reviews, or ideas for future columns.

Note that the deadline for submissions for the September 2014 issue of the newsletter is Friday, September 12.

Sincerely,

Jessica McCutcheon, Newsletter Editor

Sample: For the asexual community, asexuality is a matter of self-identification: it is defined as a lack of sexual attraction combined with one’s identification as asexual. Such a definition is certainly circular, but it functions as a way for the asexual community to explain asexuality to non-asexuals—that asexuals are people who do not experience sexual attraction—while simultaneously allowing people to decide for themselves their membership in the asexual community. When I first discovered the asexual community years ago, it was not a definition of asexuality per se that struck me or led me to call myself asexual; it was the incredible sense that these people—members of the asexual community—sounded like me. Academic research, in contrast, has largely defined asexuality as a lifelong lack of sexual attraction and in doing so has positioned asexuality in line with essentialist discourses of sexual orientation.
