

CLINICAL DIRECTOR

Our client, **KIDTHINK** – a new Manitoba based children’s mental health initiative, is seeking a **Clinical Director** who will provide guidance, coordination, oversight, and continuous development and improvement for the delivery of their program.

KIDTHINK is a creative and forward-thinking mental health organization whose mission is “to improve the lives of children and their families”. The **Clinical Director** will be joining a team that is dedicated to ensuring children have easy and early access to the critical resources that promote health, well-being, and optimal human development. You will have the opportunity to be a key contributor to developing an innovative program while working within a collaborative, supportive, and dynamic team environment that will nurture fresh perspective, training, and growth.

This position is a once in a lifetime opportunity to create leading-edge solutions to the Province's challenges in children's mental health. The **Clinical Director** will provide individual, family, and group evidence-based treatments that are trauma-informed, strength-based, and congruent with best practices, child-centred care, and family-centred care.

You will have a commitment to, and interest in, an integrated model of mental health services and your passion for delivering these services to children and their families will be the solid foundation for successful clinical programming.

Responsibilities:

- Leads the clinical practice in excellent client care, supervision, and management of the clinical program.
- Provides leadership and support to various mental health promotion and program initiatives.
- Identifies, develops, and implements clinical training.
- Provides a full-range of psychological services including biopsychosocial assessments, test administration and interpretation, diagnosis, and intensive therapy with children and parents.
- Provides empirically supported behavioural parent training interventions for children with externalizing disorders.
- Conducts family-based interventions with parents and significant supporting individuals.
- Provides clinical supervision to mental health clinicians and trainees.
- Provides consultation to mental health and outreach clinicians/staff.
- Participates in all aspects of the care continuum and the child's mental health pathway.

SKILLS & QUALIFICATIONS

- Doctoral degree in Clinical Psychology from a CPA accredited university
- Registered with the Psychological Association of Manitoba
- Minimum 5 years’ experience in related clinical practices as a certified clinical psychologist
- Demonstrated experience in clinical assessment, diagnosis, and treatment of mental health disorders
- Proficient in the delivery and interpretation of psychometric tools
- Demonstrated ability to develop and provide psycho-educational/skills-based training programs
- Ability to provide compassionate and efficient support to children and their families
- Knowledge and awareness of cultural and socio-economic factors that inform service provision
- Strong interpersonal and communication skills and demonstrated ability to establish and maintain effective working relationships with a wide range of individuals/groups
- Willingness to adapt to new techniques and best practices
- Understanding of Manitoba's health and social welfare system
- Strong focus on cohesive teamwork
- Ability to work flexible hours to meet productivity goals
- The ideal candidate will be a role model for health and wellness
