

McGill

Reference #: C-200225

Assistant, Associate or Full Professor (Teaching)

Faculty of Medicine – Department of Epidemiology, Biostatistics and Occupational Health,
School of Population and Global Health

Position description

The Department of Epidemiology, Biostatistics and Occupational Health, School of Population and Global Health, Faculty of Medicine, McGill University, invites applications for a full time or part-time faculty position at the rank of Assistant, Associate or Full Professor of Public and Population Health. This position is within the Contract Academic Staff and does not confer eligibility for tenure.

McGill University is one of Canada's leading universities, and the Department of Epidemiology, Biostatistics and Occupational Health is home to one of the largest concentrations of Faculty with expertise and interest in advanced epidemiological, biostatistical and public health methods for research and practice in Canada. The Department offers a vibrant academic environment and is one of the top units in its field in the world. The McGill School of Population and Global Health is developing its strategic plan for the next five years and the successful candidate will play an important role in the implementation and management of its public and population health academic programs.

Job Duties

This is a teaching position. The successful candidate will spend at least 80% of time teaching and mentoring Masters of Science in Public Health (MScPH) graduate students. This will entail teaching 3 or 4 three-credit graduate courses per term for a full-time faculty member (up to 12 hours of weekly class time per term) and at least 2 three-credit courses per term for a part-time faculty member. We have particular needs for teaching in the following areas: public health management, systems thinking, implementation science, qualitative methods, health promotion, public health policies, aboriginal health, chronic diseases prevention, and mental health. Additional duties will involve contributing to various aspects of the management of the MScPH program. The successful candidate will have the potential to innovate in public and population health education as well as to develop meaningful and productive relationships with public health organizations to support and enhance public health training. The candidate will also demonstrate a strong commitment to equity, diversity, and inclusion in all areas.

Qualifications and Education Requirements

Candidates must have a PhD or equivalent (MD with MSc for example) in public health or in a related field. Necessary qualifications for the position include in-depth understanding and experience working in the Canadian, Quebec or other relevant public health systems as well as understanding and experience of core public health activities (e.g. surveillance, prevention, health promotion and health protection). Degrees or studies in pedagogy or education would be important assets, though not required.

JOB DETAILS

<i>Job Type:</i>	Contract Academic Staff
<i>Rank:</i>	Assistant, Associate or Full Professor
<i>Job status:</i>	Full time or Part-time
<i>Salary:</i>	Salary will be commensurate with qualifications and experience

McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.

At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through [accommodation policies and procedures](#). Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this [email](#) or phone at 514-398-2477.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
