Maryvale Adolescent and Family Mental Health Centre
is looking for a
Ph.D. or Psy.D. in Clinical Psychology to fill the role of a Clinical Lead

This is within an acute care psychiatric inpatient unit for children and teens experiencing significant mental health issues. This position would be focused on supporting the team to set clinical direction for the inpatients as well as for the overall program. Consultation regarding interventions/assessments and partnerships locally and provincially would be a key part of the job. The clinical lead would partner with the manager of the unit and both would report to the Executive Director of Maryvale.

Who We Are
Maryvale is a vibrant Adolescent Mental Health Centre with the main campus located in Windsor Ontario and satellite offices in Leamington, the Town of Essex and Lakeshore, all within the County of Essex. The Acute Care Hospital bed program is located at and administered on a daily basis by Maryvale. The program serves Windsor Essex and Chatham Kent and admits approximately 300 children and youth each year. This service, being located on the campus of a child and youth oriented organization, is considered Best Practice and has won awards for innovation.

The multidisciplinary team consists of psychologists, social workers, nurses, special education teachers, child and youth workers, family navigators, child/youth and caregiver coach and child psychiatrists.

We offer crisis assessment, stabilization and specialized consultation to children and adolescents of all ages up to and including 15 years of age and their families.

Who We Are Looking For
- A dedicated, professional, team-oriented clinical Psychologist who specializes in assessing and treating socioemotional, cognitive and behavioural problems in children and adolescents, including the understanding of the family, using evidence based interventions.
- Experience in creating and maintain strong working partnerships within the agency and across organizations and disciplines
- An interest in providing leadership to others
- Self-awareness

What We Offer:
- A culture that strongly values the importance of providing high-quality services while maintaining a positive collegial work environment.
- Negotiable hours of work, full time or part time, intended to meet both your personal needs and those of the agency
- Regular team consultation meetings.
- Case conferences providing an opportunity to review clinical challenges/ethical situations in a non-threatening and supportive environment.
- Investment in career and leadership development and learning opportunities
- Administrative and office supports
• Competitive salary and benefit package

Qualifications:
• Ph.D. or Psy.D. in Clinical Psychology from a university of recognized standing with competencies in assessment and treatment of children, adolescents and families
• Registered with the College of Psychologists of Ontario
• Specialized knowledge of:
  - psychology, current treatment and assessment techniques, practices and theories applicable to youth.
  - psychological assessment tools and techniques and their application to youth population
  - the application and interpretation of assessment instruments
  - program evaluation and research techniques to evaluate program effectiveness, develop and conduct research projects
  - the professional standards of practice and relevant legislation (e.g., consent to treatment, care and retention of records, Health Disciplines Act, Mental Health Act, privacy and confidentiality, etc)
• Skills in providing diagnostic assessments to formulate, deliver and evaluate treatment, crisis intervention plans and programs.
• Communication and Interpersonal
• Analytical and problem solving skills
• Strong oral and written communication skills

Inquiries welcome
