

## Accepting Applications for Autonomous or Supervised Practice Psychologist

We are a busy child and family psychology practice in downtown Toronto seeking both autonomous practice and supervised practice psychologists. We provide assessments, psychotherapy, parent guidance and family-focussed interventions, employing a range of therapeutic modalities. Candidates should have strong case-conceptualisation skills and have a background or interest in psychodynamic approaches.

We offer an emotionally supportive working and learning environment, and aim to provide Associates with a wide range of clinical experiences. Associates are offered 1 hour a week of individual supervision, as well as participation in a weekly peer supervision group.

We welcome applicants who are registered with the College of Psychologists of Ontario or who have the qualifications to be eligible for either autonomous practice or supervised practice status with the CPO.

Russell Psychology thanks all applicants in advance. Only those candidates selected for an interview will be contacted. We are an equal opportunity workplace that strives to build and nurture an inclusive environment. We are committed to inclusion across race, gender, age, religion, identity and experience.

Interested applicants should submit letter of introduction and CV to Stephanie Millar at:
