

Psychological therapist

[The Mindcare Institute of Korea](#)

Share This

The Mindcare Institute of Korea is a multidisciplinary clinic with U.S., Canada, and Korean licensed speech and language pathologists, Occupational therapists, psychologists, and counselors. We are seeking a dedicated child psychologist to join our team. We work with a variety of diagnoses including Autism Spectrum Disorder, Attention Deficit Hyperactivity Disorder, Adjustment Disorder, Depression, Anxiety, and family issues.

Duties would include: providing diagnostic and educational testing for children and adolescents (testing will be supervised and taught if necessary), leading social skills groups, providing counseling/therapy for children and adolescents. The psychologist will be asked to work one or two days per week in our Pyeongtaek office (transportation can be provided but should the psychologist want to take public transportation they will be reimbursed for transportation costs). The psychologist will be expected to write daily progress notes (can be short) and progress reports as requested by various insurance companies. The ability to work in teams with professionals of other disciplines and the ability to work with schools would be valued.

Psychologists can choose to work 4 days per week (Thursday through Sunday) or 5 days per week (Tuesday through Saturday) from 10 am to 7 pm with one hour off for lunch. The psychologist will be expected to carry 6 case hours and will be provided with 2 hours of writing time/ meeting times per day.

10 vacation days will be provided in the first year, and there will be financial support for moving and also assistance for a downpayment on an apartment (in the form of an interest-free loan) in Korea will be provided.

Visa applications can be supported by the Clinic and a visa expert will guide the process.
