Psychologist II  
Location: Calgary, Alberta, Canada  
Requisition #: ALB00255688  
Salary Range: $50.18 - $66.63 per hour  
Posting Close Date: March 11, 2022  
Job Type: Regular Full Time

Your Opportunity:  
Reporting to the Program Manager the Psychologist II incumbent works in alignment with established protocols for the NCR-MD (Not Criminally Responsible Due to Mental Disorder) Community Residential Programs, AHS policies, as well adheres to professional and ethical principles as outlined in the college of Alberta Psychologists guidelines.

The incumbent provides clinical psychological assessment and psychotherapy (e.g. cognitive behavior, focused, group, family and other therapies as appropriate) and provides ongoing treatment services to adult clients presenting with a variety of mental health issues. Carries out professional duties as assigned including clinical assessment and treatment of legally mandated (Alberta Review Board) NCR adults within the residential care homes. Works effectively in an interdisciplinary setting and liaises with outside agencies and professionals. Performs work with a high degree of independence within broad guidelines and in accordance with program and professional standards. Prepares progress reports for the Albert Review Board in a collaboration with the treatment team when indicated.

Description:  
As a Psychologist II, you will provide advanced clinical services (including psychological assessment, diagnosis and/or intervention), consultation and education to the interprofessional team and patients/families, and/or provides clinical leadership and coordination in an assigned program area. This is an advanced level psychology position that will allow you to work with or within teams to provide and inform services for patients with complex and multi-dimensional medical, psychological, interpersonal, environmental and/or instrumental needs. You will consult, collaborate, and enact initiatives to ensure that practices are evidence based and in alignment with psychology standards of practice and code of ethics, as well as policy, legislation and regulations. You will be expected to lead, facilitate and/or participate in program, policy, and procedure development, service planning, staff development, quality improvement and evaluation, and/or research activities as identified by the needs of the service area(s). You may provide supervision to doctoral level psychology residents, master's level interns, provisional psychologists, psychometrists and other team members.

Required Qualifications:  
Completion of doctoral degree in Psychology in an applied area relevant to the practice setting from a Canadian Psychological Association (CPA) or American Psychological Association (APA) program. An equivalent combination of education and experience may be considered. Active or eligible for registration with the College of Alberta Psychologists (CAP).

Additional Required Qualifications:
NVCI training. Three years recent (within the last 5 years) experience working with a mental health population. Minimum of three years' experience relating to participating, collaborating and communicating with individuals, families, communities and team members and internal/external stakeholders in regards to the clients plan of care. Ability to work in an interdisciplinary setting or alone. Recent use and working knowledge of current risk assessment tools required. Solid interpersonal communication skills, interviewing techniques and writing skills, working knowledge of mental health/mental illness required.

Preferred Qualifications:
Previous experience working in a community setting and in forensic mental health is an asset. Knowledge relating to the Alberta Review Board legislation.
