

Tenure-Track Assistant Professor Position in Child and Adolescent Clinical Neuropsychology

Position # 002437TT-2923-PSY

The University of Windsor's Department of Psychology, in the Faculty Arts, Humanities, and Social Sciences invites applications for a tenure-track position, at the rank of Assistant Professor in the field of Child and Adolescent Clinical Neuropsychology commencing July 1, 2023. This position is subject to final budgetary approval.

In addition to serving a large undergraduate population, the Psychology Department offers doctoral degrees in Clinical Psychology and Applied Social Psychology. Our CPA-accredited Clinical Psychology Program offers specialized training in three areas: Adult Clinical, Child Clinical, and life-span Clinical Neuropsychology. The department has the largest doctoral program on campus, an energetic and collaborative culture of scholarship, and operates a state-of-the-art Psychological Services and Research Centre. For further details, visit our website at <http://www.uwindsor.ca/psychology>.

Candidates will have completed a PhD in clinical psychology or clinical neuropsychology from a CPA- or APA-accredited program with pre-doctoral or post-doctoral specialty training, including a CPA- or APA-accredited pre-doctoral internship, involving clinical child/pediatric neuropsychology. If not presently registered in Ontario, successful candidates must be eligible for registration in Clinical Neuropsychology with the College of Psychologists of Ontario (CPO) and must initiate the registration process within the first six months of hire, as registration in Ontario is required for all clinical positions. Successful candidates will be committed to the scientist-practitioner model. Regardless of their area of research expertise, which is open, candidates will demonstrate research productivity and the capacity to develop a strong research program and attract external research funding. They will have the ability to teach undergraduate and graduate courses broadly related to their area of expertise; be able to supervise undergraduate and graduate student research; contribute to the service and administrative activities of the clinical program, the department, and the university; and provide clinical training and supervision to graduate students through on-campus practica.

Applicants are expected to have specialised training and research interests involving neuropsychological development from early childhood through older adolescence, including individuals with typical and/or atypical development. In addition to the general requirements listed above, applicants must be competent to work in Clinical Neuropsychology with children and adolescents and must be prepared to teach graduate courses in child neuropsychology and supervise neuropsychological assessments of children and adolescents in our on-campus clinic, in addition to contributing to the undergraduate and clinical graduate program overall.
