

Child In Mind

Private Practice Opportunity - Children, Teens, Adults, Parents, Couples & Families, Ottawa

[Child In Mind](#) is a well established private practice clinic in Ottawa, ON, offering psychological services for the whole family. We are seeking clinicians who are passionate about working in a collaborative group of over 20 professionals offering exceptional, and broad ranging psychological support to children, teens, and their families. Our collaborative and multidisciplinary clinical team provides services including psychological & learning assessments, therapy services, educational consultation and pediatric consultation. We specialize in a wide range of presenting concerns including learning challenges and exceptionalities, divorce, depression, anxiety, ADHD, behavioural challenges, bullying, trauma, parent-child relationship challenges and social withdrawal. Our team also specializes in working with adults, couples and families. We invite you to visit our [website](#) for more information regarding our team, approach, and services.

Who we are looking for:

- Ph.D.in clinical psychology (completed or in pursuit of) from accredited university or equivalent
- Eligibility for Licensure for clinical practice (autonomously or supervised) in the Province of Ontario
- Solid theoretical foundation and knowledge in evidence-based clinical practice with children, teens, adults, couples and/or families
- A history of building strong relationships with clients and community partners
- The ability to identify and understand complex needs of individuals, children, teens and family systems
- Proficiency in conducting psychological, educational and learning assessments (not required)
- A demonstrated interest in working with a collaborative team of clinicians

The Job:

- Manage a caseload of therapy and/or assessment clients
- Attend bi-weekly clinical team meetings, lunch and learn opportunities, and in-house training
- Assess the needs of the clinical needs of the client and develop a treatment plan to address these concerns
- Collaborate with other professionals and community partners (eg schools, physicians)
- Work collaboratively with the clinical team

Job Types: Full-time, Part-time, virtual or in-person

If you are interested in joining our team, you are welcome to reach out [here](#) or email us at info@childinmind.com for more information.
