Psychologists – Assessment and Treatment Services

- **Opportunities in British Columbia and Ontario**
- **Remote (Within Canada), In-Office, or Hybrid | Full-Time or Part-Time | Employee or Contractor Status**
- **Competitive Compensation up to \$155,000 (CAD)/year | Signing Bonus | Relocation Assistance**

About the Role:

We are seeking dedicated and skilled Psychologists to join our team in delivering high-quality mental health services within a collaborative, interdisciplinary environment. The role offers the opportunity to provide both treatment and/or assessment services within a vocational rehabilitation context wherein clients are supported in achieving sustainable recovery and return to work.

Psychological Treatment Services

- Provide time-limited, evidence-based psychological interventions (such as Cognitive Behavioural Therapy) for clients presenting with a range of mental health concerns and diagnoses.
- Deliver treatment within a rehabilitation-focused context, maintaining a clear focus on supporting successful and durable return-to-work outcomes.
- Collaborate effectively within a multidisciplinary team to ensure coordinated and client-centered care.

Psychological Assessment Services

- Conduct formal, comprehensive psychological assessments to establish diagnostic clarity and determine causality.
 - Address a wide range of clinical concerns through in-depth psychological evaluation and reporting.
 - Provide assessment-driven recommendations to inform treatment planning, workplace support, and broader rehabilitation strategies.
-

Candidates Outside British Columbia (within Canada):

We welcome applicants from across Canada!

- Remote work options available – contribute from your home province.
- Relocation support available for those considering a move to BC
- Back in Motion will assist with licensing and registration with the College of Health and Care Professionals of British Columbia.

U.S.-Based Psychologists:

Interested in relocating to Canada?

- We offer relocation assistance and licensing support to ease the transition.
- Make a difference with a reputable Canadian employer committed to professional growth.
- Opportunities available only for those relocating to British Columbia, Canada – not applicable for remote services within the US

New Grads (Canada & U.S.):

Just starting your career? We've got you covered:

- Structured supervision program to build your skills.
- Hands-on support from experienced psychologists and regular case consultations.
- Grow in a supportive environment that values your potential.
- Educational support for ongoing CE and skills upgrading

What We Offer:

- **Competitive Compensation:** Starting at \$107,000/year, with potential annual earnings up to \$155,000 (CAD).
 - **Extended healthcare, generous paid time off, and other benefits for employees**
 - **Flexible Work Arrangements:** Choose part-time or full-time schedules—remote, in-clinic, or hybrid.
 - **Support for Licensing & Registration:** Psychologists outside British Columbia welcome. We assist with provincial licensure to ensure a smooth transition.
 - **Remote & Community-Based Work:** Provide services to clients across British Columbia, Ontario, Alberta and Yukon.
 - **Incentives & Bonuses:** Meet client engagement and performance goals to unlock additional earning potential.
 - **Relocation Assistance:** For those considering a move to British Columbia, Canada.
 - **Collaborative Environment:** Join a team committed to development, peer support, and impactful work.
-

Back in Motion is a multi-award-winning and inclusive organization committed to excellence in recovery and career development. As a firmly established and industry trusted health care organization with fourteen “brick and mortar” clinics in British Columbia and Ontario, and virtual capacity as well in Alberta and Yukon; we are excited to offer opportunities to join our team. Our collaborative environment prioritizes growth, flexibility, and mentorship. Join our team and help transform lives through meaningful psychological assessment and treatment work.
